Design & Build (D&B) & Fit-Out Expertise

SLAB Contracting is a Saudi construction and fit-out company, part of Oaktree Group. We serve residential, hospitality, commercial, and institutional clients through design support, procurement, construction, and interior fit-out

Our role extends from early project definition and design coordination through procurement, site execution, quality control, and handover. This integrated approach gives clients and partners clearer visibility across scope, cost, schedule, and delivery.

Integrated Delivery

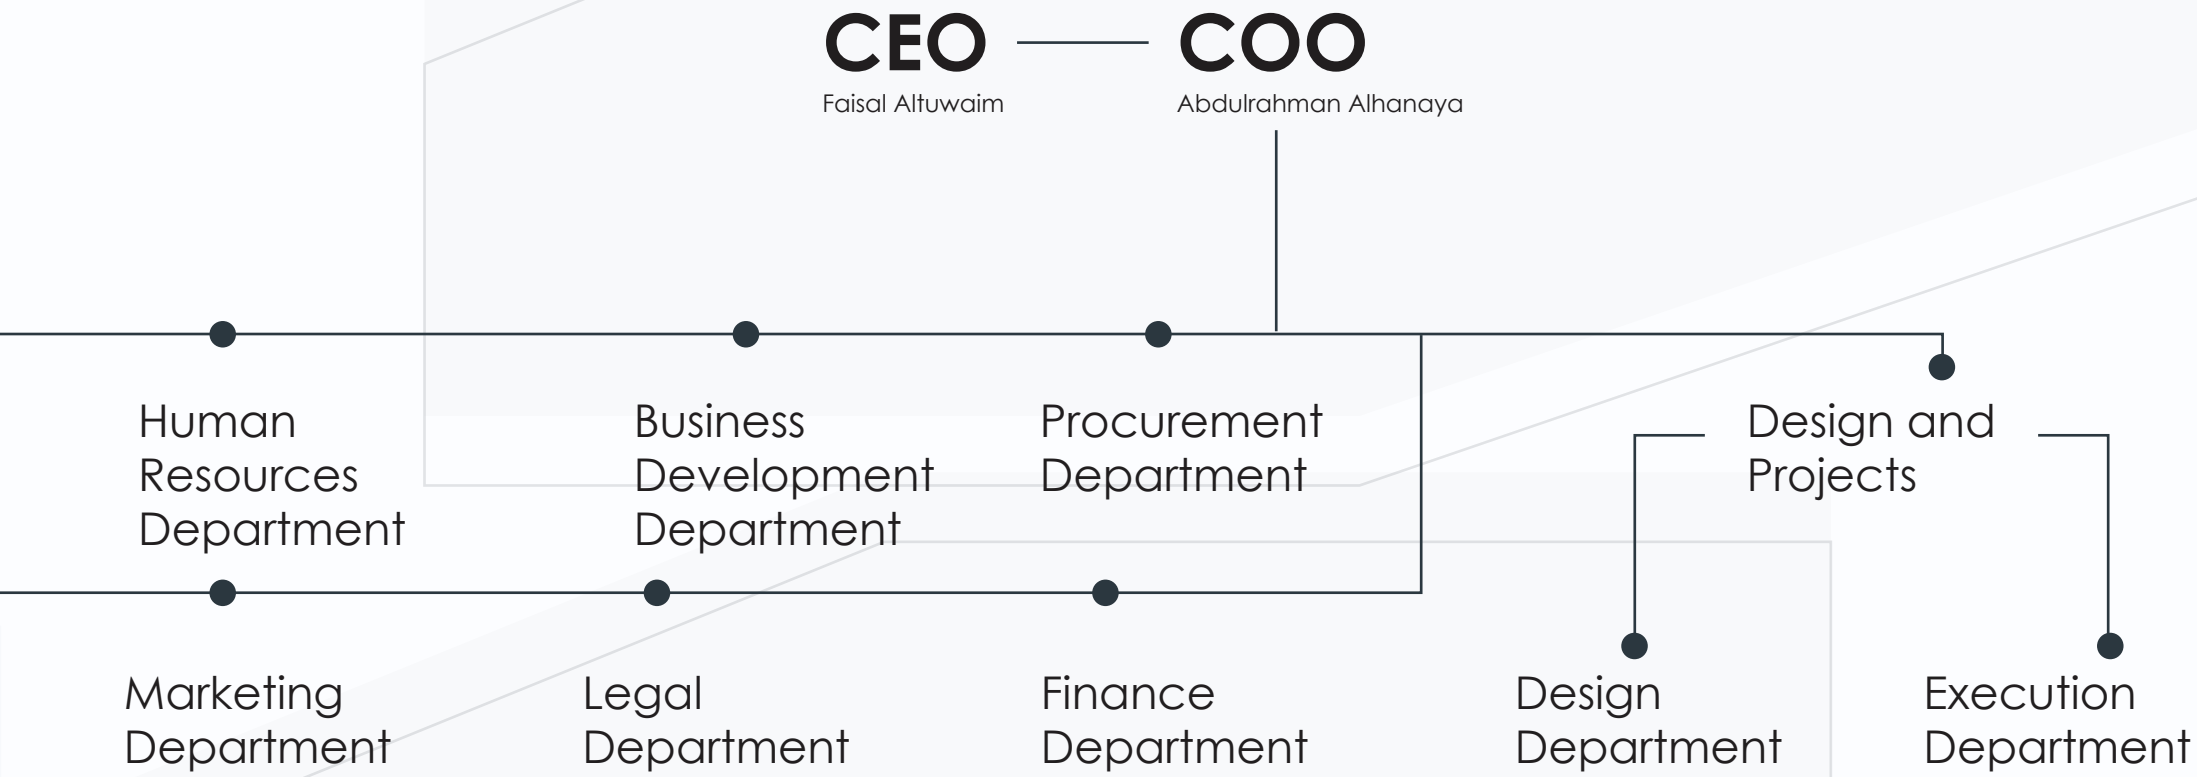

Design coordination, construction, fit-out, and handover managed through one delivery framework.

Structured Control

Clear oversight of project scope, schedule, cost, quality, procurement, and site progress

KSA Coverage

Active project experience across *Riyadh, Madinah, and Jeddah*, with a growing footprint across the Kingdom.

Our Delivery Principles

Successful construction is measured by more than completion. It is measured by the quality of execution, the level of control maintained throughout delivery, and the long-term performance of the finished asset.

Precision

Deliver against defined standards, coordinated designs, approved scope, and project requirements.

Control

Maintain visibility across progress, resources, procurement, cost, quality, and execution

Value

Make delivery decisions with operational readiness, durability, and long-term asset performance in mind.

Integrated Construction Solutions

Fit Out & Execution

End-to-end project execution supported by planning, site management, quality control, and coordination.

Design

Coordinate design development, technical requirements, stakeholder review, and approval before execution.

Interior Fit-Out

Deliver functional, refined interior environments aligned with the operational and design requirements of each asset.

Project & Contract Management

Coordinate scope, contractors, schedules, procurement, resources, reporting, and contractual requirements.

Sectors We Serve

Hospitality

Hotels, serviced residences, hospitality environments, and guest-facing spaces.

Residential

Apartments, villas, residential buildings, compounds, and renovation programs.

Commercial

Offices, towers, mixed-use environments, and commercial fit-out scopes.

Government & Institutional

Projects requiring structured governance, accountability, compliance, and documented projectcontrols.

Our Projects

SLAB's portfolio reflects a progression from residential concepts and fit-out work to active renovation programs and larger commercial opportunities across multiple cities.

The SLAB Delivery Process

01

Understand

Confirm objectives, technical requirements, budget priorities, site conditions, and operational needs.

02

Design

Translate the brief into a coordinated design across architecture, interiors, and technical specifications.

03

Approve

Complete stakeholder review and design sign-off before procurement and construction begin.

04

Plan

Define scope, schedule, resources, procurement requirements, vendor strategy, and key project controls.

05

Execute

Coordinate site activities and stakeholders through structured supervision and quality management.

06

Control

Track progress, workforce activity, resources, cost, timelines, reporting, and project performance

07

Deliver

Inspect, close out, hand over, and prepare the asset for its intended use.

Technology Supporting Delivery

Cost & Resource Visibility

Clear insight into costs and resource allocation to support faster, better-informed decisions.

Progress Reporting

Regular reporting on project status and completion progress.

Digital Project Management

Centralized coordination of tasks, schedules, and resources across active projects.

AI Workforce Monitoring

Real-time attendance and site activity tracking powered by AI.

Why Clients Choose SLAB

Integrated Delivery
A coordinated approach across design support, procurement, construction, fit-out, and handover.

Project Control
Structured management of scope, schedule, quality, cost, and reporting.

Technology-Enabled Oversight
Digital tools support project visibility, procurement tracking, and faster decision-making.

Local Delivery Knowledge
Project activity across Riyadh, Madinah, and Jeddah, with understanding of local execution requirements.

Growing Portfolio
A developing pipeline across residential, hospitality, renovation, and commercial opportunities.

Part of Oaktree Group
Operating within the Oaktree Group ecosystem, supporting SLAB's continued growth and project delivery.
